Safe Landings Systems  
Attn: Mr. Ray Kanter

Dear Ray,

Just dropping you a line to let you know how well the safe landings products we purchased are faring. As you know, the system in our infant room has been down for about 10 years. It still looks new! Both the installed safe landing carpets and the Safety Rugs are holding up extremely well even with the continuous punishment of many little feet. The most rewarding aspect of purchasing these systems is the injury prevention component. It puts my mind at ease knowing that the children who fall onto these carpet systems are not going to be hurt. My teaching staff has benefitted also by being able to sit on carpeting that cushions them and helps prevent soreness. It allows them to be where the children are – on the floor. The lino-system that was installed last year has tested very well, indeed. The children in our toddler room use their riding toys daily. If they happen to fall off, they get right back up without a single tear being shed. It's easy to clean and is perfect under our tables where food is served. It is a perfect accompaniment to our safe landing installed carpet system. Thank you for these wonderful systems. They have truly made a difference in our center.

Kind regards,

  
Cheryl Rudd
